## Fundraiser Update

By the grace and mercy of Allah, the fund raising dinner was a very successful event. Given the prevailing circumstances, we take heart that Glasgow continues to support many, many great causes and amongst them our own project continues to be well received. Over seventy three thousand pounds were raised on the night (£73k). We have received generous support from a couple of parties outside Glasgow, including a substantial interest free loan to be repaid over the next two years. The current total working capital as at the start of June was approx. £400k, allowing us to award a number of key contracts.

## Construction Update

Alhamdo Lillah, the generous support afforded to us to date has allowed a number of contracts to proceed, necessary to achieve habitation before our building warrant runs out. The criteria used to select contractor has been consistent throughout the project: We sought multiple quotations and evaluated each on the merits of overall value to the project, not necessarily the lowest price. The following contracts have been awarded:

Heating, ventilation and Plumbing contract awarded to William Whitfield of Bellshill. William Whitfield agreed to become principal contractor for Health and Safety purposes.

Wiring and Lighting awarded to Pilot Gas services who employ their own sub contractor and have given us support for some time now.

Power Connection contract awarded to IUS utility services. We are currently awaiting delivery of a three phase transformer before power can be connected.

Ceiling contract awarded to McCallum Ceiling. John McCallum has fitted ceiling in other mosques and has to date provided good advice and support. The ceiling work will begin as soon as we take delivery of materials.

CCTV, Audio system, Intruder Alarm, Fire Alarm and data network contract awarded to IME. Work due to begin imminently.

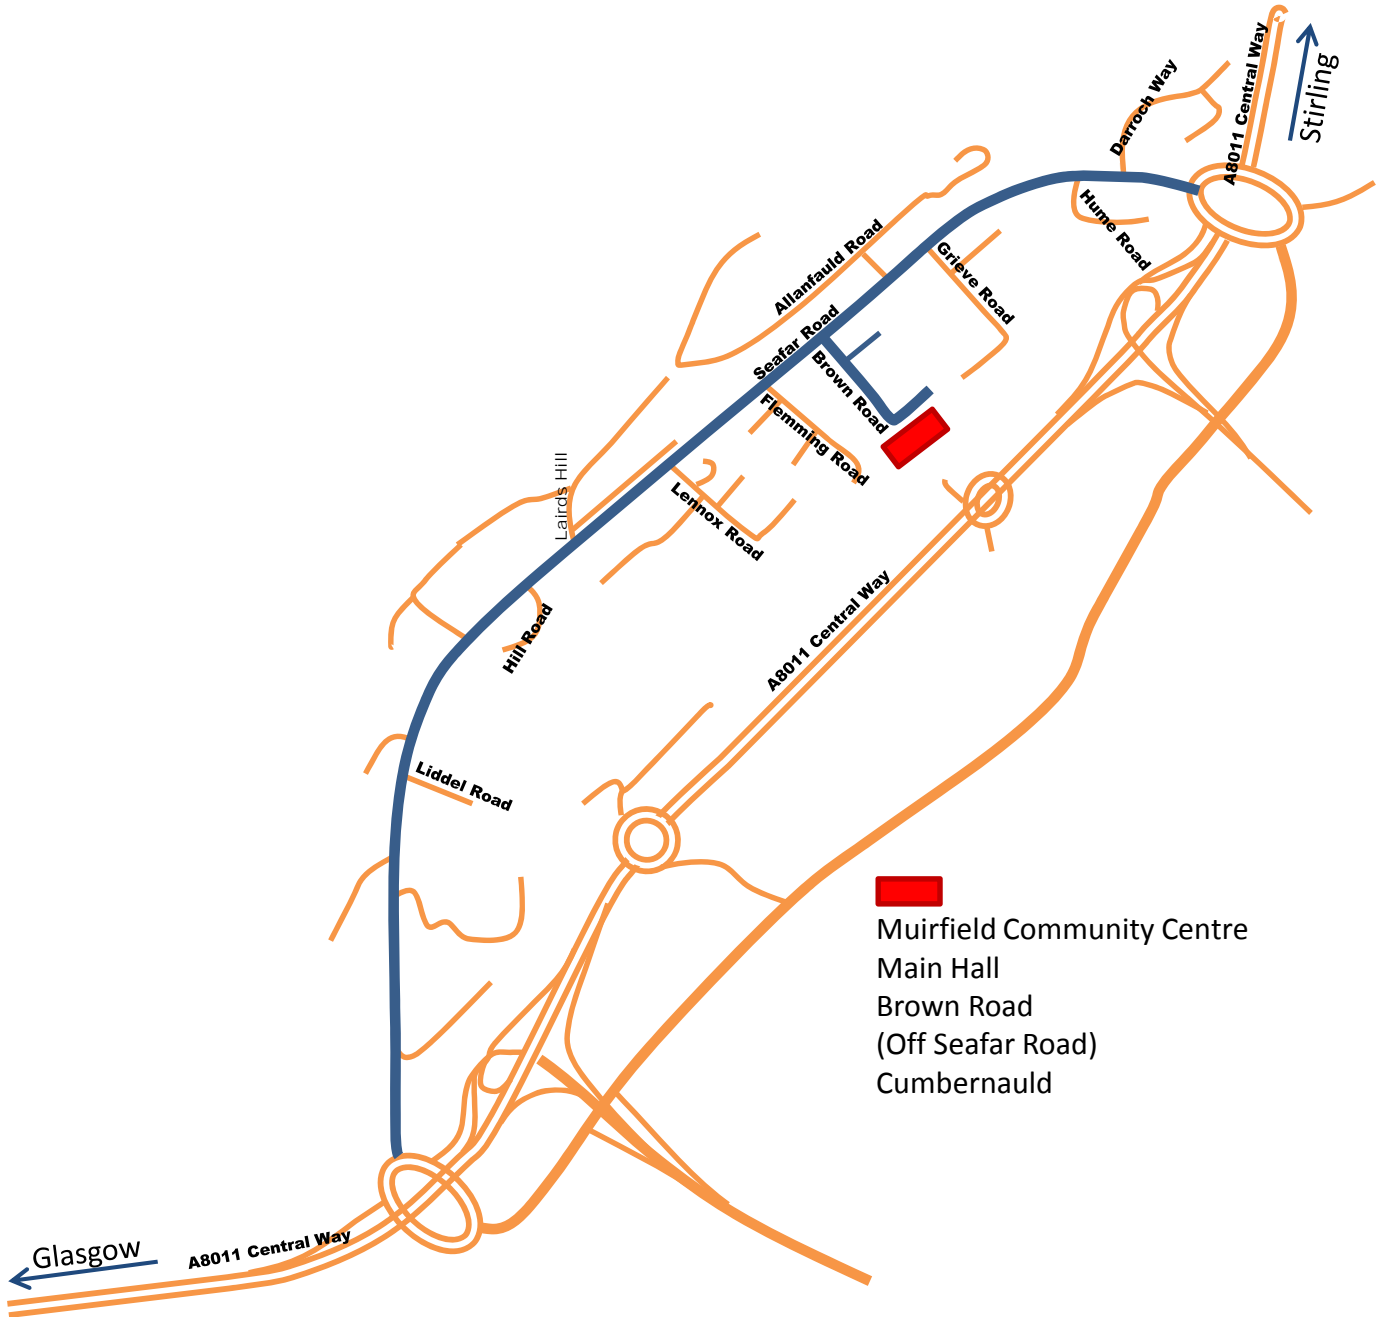

Tiling and Tape/Fill contracts awarded to ID concepts. Br. Ghani has provided immense support throughout the construction project and is carrying out the wall preparations.

Lift for Disabled Access to upstairs: Contract awarded to OTIS Lifts. We are currently awaiting delivery of the lift.

Contracts in discussion: Joinery, Flooring

Other future works: Painting and decorations, Furnishings, Carpets, Dome, Car Park, car Park lighting, Landscaping.
