## Public Previewing Day

*An update on a great day*

On Sunday February 24th the masjid doors were opened to allow our community to come see the progress that has been made to date. Alhamdo Lillah the response was incredible to say the least. The masjid committee had strived hard to make the building safe enough to allow this event to happen. Even on the day before the event, some of the brothers were in attendance from morning to 11pm at night to ensure that the place was clean. We make du'a that allah rewards everyone who contributed in every possible way.

Alhamdo Lillah, we have reached our target of funds required to commit to the outstanding contracts required to get habitation. However since much of the car park work is outstanding, we will at best get temporary habitation that will allow us to start using the masjid. Insha Alla that will allow us to hold our daily prayers and give the platform to raise the remaining funds to get full habitation.

In order to get this far we received Qard-e-Hasna from various sources. Therefore, insha Allah, fund raising will continue so that we re-pay our debts at the earliest opportunity.

*“The main purpose of the public previewing day was to allow our community to see the progress to date”*

### Sponsor a Finish

Most of the items did find sponsors on the previewing day. However, there are some other items available. Some examples are listed below. A fuller list will be posted on our website and Facebook pages:
